7.3¢

7.1¢

High

14.4¢

13.9¢

13.7¢

The price you pay for electricity will vary according to the pre-defined formula set forth in Addendum B to your agreement: The technical calculation of the price per kWh is determined as follows:

Price per kWh = [(Day Ahead Load Zone LMP + Retail Adder + Energy Usage based TDU Charges + Energy Usage based management fee, if any)].

In addition, you will pay the Monthly Base Charge, if any + TDU Delivery Charges + Pass-Through Charges ("Component Amount"). The Component Amount plus the total amount due for electricity (i.e., Price per kWh * Energy Usage) is then multiplied by [PUCT Assessment Fee / Energy Usage]. Your monthly charge will be equal to: [the resulting amount + Component Amount + Taxes].

You may obtain information on the LMP at <http://www.ercot.com/mktinfo/dam/>, or call the Gexa Energy sales team at 866-867-7321.

LMP Charge

Day Ahead Load Zone LMP (\$/MWh)

Retail Adder

\$25/MWh

Base Charge

\$5.99 per month

TDU Charges

\$42.33 per month

TDU Charges

\$8.434 per KW

TDU Charges

\$0.000662 per
kWh

You may be subject to a special charge from your transmission and distribution utility (TDU) that is not included in the total average price for electric service. If you are subject to a TDU special charge, you may contact Sharyland Utilities LP at 866-354-3335 for more information regarding the price and applicability of the charge.

Other Key Terms and questions

See Terms of Service statement for a full listing of fees, deposit policy, and other terms.

Disclosure Chart	Type of Product	Indexed
	Contract Term	1 months
Disclosure Chart, cont.'d	Do I have a termination fee or any fees associated with terminating service?	No. You can terminate this your agreement for any reason, including a situation where you move to another location. To terminate this Agreement, you must call or fax Gexa Energy at the contact numbers provided in your Terms of Service at least fifteen (15) days in advance of your last expected meter read date.
	Can my price change during contract period?	Yes
	If my price can change, how will it change, and by how much?	Your price will vary according to the following pre-defined pricing formula set forth in Addendum B: The price per MWh of usage equals the day-ahead Locational Marginal Price (LMP) for the applicable load zone, plus a Retail Adder set forth in that Addendum, and applicable TDU Charges. There is no limit to which your price may change. Your price may also be adjusted to reflect changes in charges from the TDU, changes to the ERCOT, PUCT, Texas Regional Entity or other administrative fees, or other costs and expenses incurred by Gexa Energy as provided in the "Change in Law" section of your Terms of Service.
	What other fees may I be charged?	Please see "Summary of Gexa Energy Non-recurring Charges" and "Definitions" sections of the Terms of Service for a complete listing.
	Is this a pre-pay or pay in advance product?	No
	Does the REP purchase excess distributed renewable generation?	No
	Renewable Content	This product is 11.5% renewable.
	The statewide average for renewable content is:	11.5%
